**Re: Letter of Recommendation
Indefinite Delivery Contract
Charleston County School District
Charleston, SC**

Dear Mr. Yeh:

Thank you for your efforts in completing two significant projects for Charleston County School District this past summer. The projects IPW completed were essential to properly prepare this school district for the start of the new school year.

The *Interior Renovations to Dunston Elementary School* provided a much needed face-lift to a facility that supports children in high risk neighborhoods. After the completion of your work, the building was featured in a local news event that show-cased the learning program. Principal Patty Schaeffer, from Dunston Elementary School, has also expressed her happiness with the results of IPW's work.

The *Demolition of 22 Deteriorated School Trailers* was an essential milestone for us to achieve in order to replace them with new trailers. IPW was able to meet a very strict timeline to demolish these deteriorating facilities in place. IPW abated the asbestos flooring and removed the remaining structure in time for the installation of the new trailers. This required significant project management and communication between IPW and me.

I understand the significance of Letters of Recommendations for a growing company such as yours. You and your staff have demonstrated the dedication, professionalism, and performance of a high quality company. We look forward to working with you and your staff for the next five years under this contract vehicle.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark Cobb', written over a light blue horizontal line.
