Dear Mr. Sinor:

I just wanted to take a moment to write to tell you how satisfied we are with the work your firm did in the repairs to our Sumter Street Parking Garage.

Not only was your bid below our engineer's estimate, but the workmanship, speed of installation and your communications with neighboring businesses made it a real pleasure doing business with your company.

I am also appreciate of your attention to detail in working with my staff to insure the color of the replacement panel matched our existing paint colors used in other areas of the garage. It's very heartening to see a repair that doesn't look like a repair.

If you are ever back in Columbia, please stop by.

Sincerely,

John David Spade  
General Services Director
