Mr. Matt Farmer
International Public Works
Post Office Box 888
Mount Pleasant, South Carolina 29464

Dear Matt:

On behalf of the Medical University of South Carolina (MUSC), thank you for the excellent work that you, International Public Works (IPW), and IPW's associates did on the construction of our Motion Analysis Lab. The researcher who will head this lab, Dr. Tasos Karakostas, was especially pleased with the end product and the quality of construction.

We appreciate the flexibility you demonstrated throughout the project in accommodating the scheduling demands of Dr. Karakostas and MUSC. It was vital to Dr. Karakostas that he was present during portions of the flooring work and we appreciate your willingness to accommodate this request. We also appreciate your willingness to work after-hours as needed so as to limit disruption to the remaining building occupants.

The leadership you provided on this project was outstanding. We were kept in constant communication regarding the progress of the work and any issues that arose. You truly went above and beyond to ensure we were delivered a quality product and were pleased. Again, thank you for all of your efforts in making this such a successful project for MUSC. We look forward to working with you and IPW again on future endeavors.

Sincerely,

Julie F. Ham
Project Manager
