Mount Pleasant, SC 29464

Subject: Letter of Recommendation for International Public Works  
Owner: South Carolina Department of Natural Resources  
Project: Palachucola / Webb Firing Ranges  
Location: South Carolina

Dear Mr. Yeh:

I want to compliment you and Cyrus Sinor, P.E. for your efforts on the construction of the new firing ranges for the South Carolina Department of Natural Resources. Your team provided expertise and professionalism throughout the duration of this project. IPW was able to complete this project on-time and within budget despite the challenges faced due to excessive rain and poor site conditions.

IPW's ability to identify and resolve complex issues quickly was noted in several circumstances including:

- Resolving differing site conditions due to berm construction by others
- Modifying the trap houses for better performance
- Installing footings to rifle barricades for improved stability

With your team approach and project management style, it's clear that your focus was to the client. These skills will translate into success for any size project, which you have clearly demonstrated them on this project.

As a growing company, we understand the importance of these recommendations, and would gladly provide you a reference to your future clients, directly.

I wish International Public Works much success in the future, and look forward to working with you again.

Very truly yours,

**C. VARGAS AND ASSOCIATES, LTD.**
